As you are aware [REDACTED] will have a roundup on Khrushchev's visit on the wire by about 3:00 p.m. Friday, 25 September. This will update our reaction report to be delivered to the DCI by 1300 Wednesday, 23 September. It will be written with the special needs of the President's staff at Camp David in mind.

In addition I have instructed the Wire Staff to be especially alert to the requirement of the Camp David staff, the Watch Office and the DCI over the weekend. If items of special interest on and about the Khrushchev visit appear, Camp David will be alerted by telephone. etc..

Presume that Roger has told you that beginning about two years ago we took all trainee editors off the wire and now use only trained personnel, most of whom have had overseas field experience.
